NEW YORK

COLLECTION

The beginning of
a great story

Your life, extraordinary

COMPAC
THE SURFACES COMPANY

Large open spaces, smooth textures, and light, lots of light. The loft culture, converted industrial buildings, functional space, we now call home.

From the fusion between architecture, design and functionality grows the New York Collection. Silky countertops dressing elegant spaces that excite the touch, arouse the senses and bring us to the Big Apple, to its streets, to its corners, to its stories...

CHAPTER 1

The Broadway première

"...She pushed aside one of the many bouquets of roses that populated her apartment. She opened that bottle of champagne she had been keeping for a special occasion. She poured herself a glass and let the bubbles soothe her tired throat. Tomorrow the whole city would be talking about her success..."

CHAPTER 2

Date at 10 in the West Village

"...They took shelter in a bakery on Bleeker Street because it was raining cats and dogs, and he bought her some honey cakes. The next morning she found a note with a short verse that made her think that fate was by no means ready-written: 'If you weren't here, New York wouldn't exist.' And the note was still there, a year later, hanging from the fridge..."

ICEZEMENT

ICEZEMENT

Your life

CHAPTER 3

The Autumn Leaves in Central Park

"...While on his stroll he gathered fallen leaves from the maple trees, each of a different colour, from deep green to bright sienna. He returned to his apartment and spent the whole night combining them, giving shape to a collection that he would be presenting in Paris and Milan in less than a year..."

Datasheet

COMPAC TECHNOLOGICAL QUARTZ is composed of 95-97% pure quartz, 3-5% agglomerate polymer in high-quality polyester resin and less than 1% pigment. Quartz is one of the hardest minerals in nature and gives COMPAC TECHNOLOGICAL QUARTZ worktops outstanding levels of abrasion and scratch resistance.

	Units	Values
Fire reaction UNE-EN-ISO 9239-1:2002 & ISO 1716:2002	Euroclasses	A2fl s1
Thermal expansion coefficient UNE EN 14617-11:2006	°C-1	34,0 x 10 ⁻⁶
Flexural resistance UNE EN 14617-2:2008	MPa	60
Impact resistance UNE EN 14617-9 2005	J	12 - 15
Slip resistance UNE EN 14231: 2004	USRV	16 wet 40 dry
Water absorption UNE EN 14617-1:2013	%	0,073 - 0,102
Compression resistance UNE EN 14617-15:2005	MPa	263
Apparent density UNE EN 14617-1:2013	kg/m ³	2,300
Abrasion resistance UNE-EN 14617-3:2012	mm	28,5
Chemical resistance UNE EN 14617-10:2012	C4	Acids: C4 Alkali: C4 (Materials maintaining at least 80% of their resistance reference value 8 hours after acid or base attack)
Surface hardness UNE EN 101 Ceramic tiles.	MOHS	6 - 7

The values shown on this data sheet are typical values only, and therefore not legally binding.

Finish

Only available in Glacé Finish.

Sizes

Useable surface area

305 x 140 cm

Standardised thicknesses

20 mm and 30 mm depending on application and format
